

Health & Safety Highlights

NOVEMBER IS FIRE SAFETY MONTH

In November, we reviewed our fire safety training and participated in our quarterly fire drill. One of the main goals we try to achieve is to evacuate the building within 3 minutes. Participating in our fire drills helps to ensure that we are reaching our goals and doing so in a safe manner. This year, the H&S committee made a video of how to use a fire extinguisher and it can be found on our website.

NEW TRAINING ALERT

The month of December is officially our Active Shooter/Workplace Violence Awareness Month. The active shooter training heightens our awareness in unpredictable situations. No one likes to imagine something tragic may happen, but we must be prepared in case it does and we must make good decisions that could potentially save our lives. The active shooter training and video can be found on our website.

GOOD NEWS! VACCINES ARE ON THE WAY

COVID-19 vaccines will be available soon! Hopefully everyone will have an opportunity to be vaccinated by the summer of 2021. Let's keep our fingers crossed and hopefully we will be able to "get back to a normal life" soon. If you would like to know more about vaccination recommendations please go to the CDC's website.

SAFETY SHOUT OUT!!

This quarter we are sending a big shout out to laRe for doing an outstanding job of keeping the workplace safe. Since the beginning of the coronavirus pandemic, laRe has stepped up in place of committee members that have been absent from the day program and taken on more health and safety responsibilities. He has also done an awesome job of encouraging his peers to practice good hand hygiene. laRe is focused on maintaining a healthy and safe environment and we are immensely proud of him!

THANK YOU TO EVERYONE FOR KEEPING US SAFE

We know things have been challenging during this coronavirus pandemic. A little bit of kindness and respect go a long way to helping keep people safe. Thank you to all the people we support and MSS employees for thinking of others by wearing your masks, routinely washing your hands, and social distancing as best as possible. We are actively reducing the spread of the coronavirus! Please stop by the HSCO's office and pick up a free cloth mask!

ALWAYS OUR MISSION

Morgan Support Services raises the bar in the provision of support services for people in our community living with behavioral health diagnoses and/or developmental disabilities by creating a responsive, inviting, and professional environment in which those we support, those we employ, and our community partners may begin to believe the unbelievable, imagine the unimaginable, and achieve that which may have seemed unachievable.

"Safety is a full-time job, don't make it a part-time practice." – Author unknown
